TS5810 R-HDMI

HDMI Multi-format DVD Recorder

Product codes

TS5810 R-HDMI: 28010020

Record your favorite TV programmes or movies in DVD +/-R and DVD+/-RW format with the new TELE System DVD Recorder TS5810 R-HDMI. Thank you to the digital recording you will have best Audio and Video quality. The TS5810-HDMI plays movies in DVD, DVD +/-R e DVD+/-RW, videos in MPEG4 (DivX - XviD), audio files in MP3, CD R / CD RW formats and displays pictures in JPEG. With the HDMI output you will be able to transfer to your TV any digital audio / video signal in high definition quality. The TS5810 R-HDMI is equipped with many different Audio / Video sources like the DV-IN connection on the device front panel, to connect your video camera and watch or record your best videos. The software „UP-SCALING" function ensures much better video quality than the traditional standard definition.
