

# TS4600HD-CI

HD DVB-T/DVB-S receiver - Common Interface - Combo Box

## Product codes

TS4600HD-CI: 21005114

COMBO TS4600HD-CI Common Interface is the new and revolutionary digital satellite receiver in high definition which can receive the whole range of satellite and terrestrial channels, free to air and pay to view via Common Interface.

Its compatibility with High Definition transmissions means you simply have to connect the receiver to a HD Ready or Full HD TV by the HDMI digital output to be able to enjoy astoundingly sharp images and sounds. The characteristics offered by TS4600HD-CI make it an extremely complete, high performance receiver. What's more with the OTA update function, the receiver can be updated by the terrestrial antenna.

TS4600HD-CI can access pay to view services on digital terrestrial by the SmarDTVcam.
