

# 9+13 Dual Feed Kit

## Satellite kit

The 9+13 DualFeed Kit, manufactured in collaboration with Eutelsat, can receive over 500 free to air channels from two satellites.

The new orbital position at 9° east is dedicated to high definition regional broadcasters and countless new theme channels with a vast selection of entertainment programs: sport, cinema, music, documentaries, information, travel...

What's more the receiver is factory programmed and tuned into the leading TV and RADIO broadcasters.
