

TS8500PND

Portable Car Navigation Device

Product codes

TS8500PND with EUROPE FEU (44 countries): 28040030

The Portable Car Navigation System TS8500 PND disposes of a user friendly graphic interface and a 4.3" widescreen display in 16:9 format.

Among its many distinctive features there are: the route recording function, detailed POIs and the possibility to personalize navigation messages.

The excellent price/quality ratio makes it your best travel companion for both your business and free time journeys.

Now you can use TSEnavi+, which allow you to update and upgrade your Navigation system!
