

TS2.5PD

Portable DVD with integrated DVB-T

Product codes

TS2.5PD: 28015007

The new TS2.5PD TELE System looks like a standard portable LCD TV, but behind its 9" design display, an high quality DVD player is integrated. Its high resolution 9" inches LCD with 16:9 aspects ratio grants high quality screen performances in displaying images and film. The digital integrated tuner will enable you to watch and to listen to your favourite digital radio/TV programs as well as DVDs. Furthermore thank you to its USB slot, you will have the possibility to connect your device to any kind of external USB memory to visualize pictures and videos or listen your favourite music. The TS2.5PD makes DVD-viewing and TV-viewing possible whenever You want it.
