

TS2.2 Twin

Portable DVD Player with double LCD screen

Product codes

TS2.2 Twin: 28015005

With only 3 cables you will enjoy watching movies everywhere.

1 cable to connect your DVD player to the power supply

2 cables to connect the DVD player to the 2 x 7" LCD screens and transfer both the audio / video signal and the power supply.

Each monitor has integrated stereo speakers and an headphone jack with independent volume control.

The portable DVD player TS2.2 TWIN TELE System with its double 7" LCD screen, is perfect to watch your favorite movies whenever you want it. Thank you to the quick and easy system for fixing the monitors to the headrests of your car, you will entertain your passengers with DVDs, making the journey more comfortable. Only a 1.5 m cable will be necessary to connect the LCD screens to the DVD player and to the power supply, a great solution to avoid having too many cables in your car. Each 7" LCD monitor has integrated stereo speakers and an headphone jack with independent volume control. The anti-shock protection grants no interruptions while watching your movies.

Double screen for double entertainment wherever you want it!
