

TS010 A

Portable Analog " LCD TV

Product codes

TS010 A: 28000023

The Telesystem portable TS010 A LCD TV ensures you best picture quality and portability. With its coloured 10.4" TFT LCD screen you will be able to watch your favourite programmes in high-definition standard. Perfect as second television, it is equipped with tv tuner, built-in telescoping antenna and TV input (to connect it directly to your home antenna). The TS010 A portable LCD TV comes with car adapter, 220 AC power supply, AV/IN jack cable for connection to external devices (dvd and video players, etc.), multi-function remote control and table/wall mounting. TS010 A is easy to use and install also for the less expert users.
