

TS010 AD

10" LCD TV

The TELE System TS010 AD is the portable LCD TV capable of offering you all the TV and radio digital terrestrial channels thanks to its built-in DVB-T tuner.

10.4" TFT LCD colour screen allows you to watch your favourite programs in high quality.

It is ideal as a second television with its digital terrestrial tuner, built-in external aerial, external digital TV aerial and TV input (to connect it directly to your aerial at home).

The TS010 AD portable LCD TV comes complete with: car cigarette lighter adapter, 220V AC power unit, AV/IN jack lead for connecting external appliances (e.g. dvd players, video recorders, etc.), multi-function remote control and table/wall support.

TS010 A is easy to use and install even for less expert users!
