

# **TS2100AV**

**Mp3/mpeg4 video player with expandable memory**

**The TELE System TS2100AV video player with 1GB flash memory (expandable with Micro SD max 2GB) and its 2" LCD colour display allows you to watch your favourite videos and photos with impeccable quality.**

**Thanks to the voice recorder you can save interviews, conferences, memos and even record radio programs directly onto your video player. The soft touch keypad, the built-in speaker and external memory slot make this an innovative and very complete appliance.**
