

TS5.6HDMI

HDMI DVD/mpeg-4 player

Product codes

Silver: 28010012

Black: 28010013

Thank you to its many interesting features the new TELE System DVD/MPEG-4 player TS5.6HDMI distinguishes itself from the other DVD players available on the market. The HDMI output enables transferring high quality A/V digital signal to your television. Opening its front panel window you will find a handy USB port to connect external memories and a SD-MMC Memory card slot. Extremely slim shape! Only 4.2 cm high.

The software function "UP-SCALING" will grant you a much better video quality than the usual standard definition.

The TELE System TS5.6HDMI is available in two versions, silver and black.
