

# TS1.1 LU

## 2.4 Ghz digital wireless audio kit

The digital wireless audio kit TS1.1LU, makes high-fidelity audio transfer possible wherever you are. You just need to connect the transmitter to an audio output (pc, Tv, stereo Hi-Fi, MP3 Player) through the Line-in or USB port. Besides the receiver gives you the possibility to change quickly and easily the signal source ( up to 4 different channels) and to transfer wireless the audio signal to the receiver connected to the headphones included in the kit. If the transmitter is connected to a computer, it will be supplied directly through the computer USB port without needing to be connected to an electric plug.
