

TS8411

3.5" Portable GPS Navigator

This is so easy to use that it is an ideal travel aid for anyone. Quick, precise route calculations, stereo speakers added to crystal clear graphics are a pleasant companion to get you to your destination. The TS8411 navigator has the exclusive iGO amigo software with its user-friendly functions and fashionable appearance, designed to make navigation accessible and appealing.

DISCOVER THE THREE DIMENSION, REAL 3D MAPS, A REAL REVOLUTION!

The route is child's play to follow. The buildings will roll by you so that you have no trouble whatsoever recognising them at an instant, the view of the slopes between junctions and land conformation will let you know exactly the kind of route you are taking so you can face it in all tranquility, enjoying a relaxing journey and in utter safety.
